

**CIVIS**  
**Landscapes and tourism – Exploring the touristscapes of Bucharest**  
**15 May 2023**  
**Quantitative methods**  
**Barbara Staniscia**

In my seminar I have explored the possible uses and functions of two important tourist datasets:

- The UNWTO tourism data dashboard:  
<https://www.unwto.org/tourism-data/unwto-tourism-dashboard>
- The Eurostat database on tourism:  
<https://ec.europa.eu/eurostat/web/tourism/data/database>

I have used the two datasets to give examples of data available for those who want to study tourism in European countries, at different spatial scales.

The seminar has been co-constructed with the students who were invited to intervene, who posed questions and gave me solicitations to orient the direction of the presentation.
